University of Virginia, B.S., 2010, *with distinction*

Admissions

United States Patent and Trademark
Office

Ryan Clairmont is a Patent Agent where he regularly drafts and prosecutes patent applications and works with clients to perform freedom to operate (FTO) searches and develop patent portfolio strategies.

Prior to joining Nexsen Pruet, Ryan worked for a boutique intellectual property firm, gaining extensive experience with patent applications primarily in the chemical, biochemical, biological, machine learning and software fields. With a Ph.D. in Chemical Engineering, Ryan's research and industry experience focused on the study of organic catalysts for generating carbon-carbon bonds from aldehydes as well as the development and optimization of analytical methods using high performance liquid chromatography (HPLC), mass spectrometry (MS), and tandem mass spec (MSMS).
