### Practices

Litigation

---

**Rated the #1 TRUECar/ USAA Independent Dealer in the US, Hanna Imports and Apex Imports are located in NC and typically maintain over 1000 automobiles.**

After success in Raleigh, its first location, Hanna Imports opened a sister dealership, Apex Imports, located in Apex, North Carolina. Hanna Imports and Apex Imports typically maintain an inventory of more than 500+ cars at each location.

Exciting growth and expansion naturally brings the need for a law firm with a network of qualified and well-experienced attorneys. Nexsen Pruet has assisted Hanna Imports and Apex Imports in securing real estate for their expansions in both Raleigh and Apex. We have assisted Hanna with employment matters, including refining their human resource and business practices and I-9 compliance; contract disputes through both litigation and resolution prior to formal action; and immigration matters, including the naturalization process. Hanna and Apex Imports are customer-focused and value-driven. Nexsen Pruet has the same core principles, so it's a great partnership. Owner, Elie Hanna says,

***"At Nexsen Pruet, my needs were always put first and I was treated as a friend rather than just a number. I have worked with Dan Boyce and David Garrett, among others and have leaned on Dan and his firm for advice and guidance throughout the years. The experience and knowledge he provides gives me a sense of peace and confidence. Thank you guys for being such great partners."***

Dan Boyce has enjoyed working with Elie and watching his company grow over the years. "Watching Elie Hanna take a small family business and develop it into what is now one of the busiest car dealerships in the state is a career highlight. It brings a smile to my face to drive around Raleigh and see 'Hanna Imports' or 'Apex Imports' imprinted on cars. We look forward to Hanna's continued growth and expansion in the Triangle."
