## Areas Of Concentration

Data & Intellectual Assets  
 E-Commerce  
 Emerging Technology  
 Technology Disputes and Litigation

In the last two decades, technology has become ubiquitous in businesses and organizations of all kinds. As a result, it has become essential that lawyers in nearly every area of legal practice consider the impact and implications of technology on virtually every aspect of business.

Nexsen Pruet's Technology Law Group draws on attorneys from across the practice groups across the firm to create a team that can address virtually any technology-related legal challenge. The practice areas represented in our Technology Group include:

- Employment and labor law
- Startups and innovation
- Mergers and acquisitions
- Entertainment law
- Immigration
- Economic development
- Intellectual property
- Litigation and alternative dispute resolution
- Tax
- Privacy law
