Practices

Intellectual Property Law
Litigation
Corporate Law

Education

- Rutgers School of Law - Camden, J.D., 1994
- The Ohio State University, M.S. - Organic Chemistry, 1989
- Wittenberg University, B.A. - Chemistry, 1986

Admissions

- Georgia (inactive)
- Supreme Court of Georgia (inactive)
- North Carolina
- U.S. Patent and Trademark Office
- U.S. Court of Appeals, Federal Circuit

David's Intellectual Property practice primarily focuses on pharmaceuticals, petroleum chemistry, polymer chemistry and biotechnology. He has assisted clients in developing world-wide patent strategies, drafted and procured patents in the U.S. and coordinated patent procurement worldwide. He has also counseled clients with respect to non-infringement, invalidity and freedom to operate issues; negotiated licenses related to intellectual property; coordinated Inter Partes Review; European oppositions; assisted with patent litigation; and conducted due diligence studies and IP audits.

Before becoming a lawyer, David was a process development chemist with MTM Fine Chemicals and an Adjunct Professor of Chemistry at Camden County Community College. David is a member of the Biotech and Chemical Committee of the IP Section of the North Carolina State Bar Association and a long-standing member of the American Chemical Society. As a scientist, he is named as an inventor on 10 U.S. patents and he also won an award from Innocentive for his improved synthesis of butane tetracarboxylic acid.

Experience

- Inventor of nine U.S. patents as a scientist
